JW(HR), re today's Post's "U.S.Regrets CIA Agent's False Letter." If you see anything else I'd be interested. How closely this fits what Segretti did after Hunt was put up to watching him! And for those who think experienced spooks do not make stupid mistakes, as at the Watergate, this guy in Thailand actually registered his fake letter, which made tracing it back to him child's play. Why register it to begin with? And would the guy he pretended wrote the letter have registered it? I wonder about this Aintner, if he could be related to Bob Aintner, who was Alsop's column partner until WWII, when he entered the service? He was later, I think, president of NBC or of NBC News. Failed there. HR: The column began as Alsop and Aintner and began as reactionary as it is under Alsop. Note how early CIA was in paramilitary activities, 1950-2 _intner was, as planning specilist.
